Native

### PROJECTS

**Kew** 

Music Player written in C

Contributed to the early development of a command line music player fully written in C with over 1.4k stars, and fully maintain the packaging and distribution of it in Archlinux.

### ABOUT ME

— I'm a third year Computer Science student at Buenos Aires University. I've been coding since I was 15 years old and have done several projects in various languages, including java, C#, python, Rust and many more. On my free time I love playing the guitar, reading both scientific articles and books, customizing my archlinux system and working on my own projects.

### PROFESSIONAL EXPERIENCE

#### Systems and Network Administrator

02/2022 – 01/2025

Worked as a network administrator for a law firm setting up and maintaining their network infrastructure and website.

### TECHNICAL SKILLS

#### •Linux System Management +6 Years

Managed Systems for a law firm, as well as the hosting and scaling of my own projects using varied technologies (web securization, containers, etc) and platforms, (AWS, self hosting, etc).

### EDUCATION

#### Master in Computer Science

Universidad de Buenos Aires

06/2022 – 06/2027

Third Year Student

#### Bachelor's Degree in Software Development

Universidad de Buenos Aires
